Update May-July 2018

Highlights from May-July 2018 are:

Adverse events
• The group highlighted the importance of
  ➢ encouraging patients to report an incident
  ➢ improving awareness of the yellow card reporting system, and
  ➢ using a consistent recording system across organisations.
• Information on how to report incidents is available from the NHS Inform website and the IRIC website.

Evidence
• An up-to-date systematic evidence review (including evidence since 2017) has been prepared and circulated to all Board Medical Directors. The role of the TVMO group has been drawn to their attention.
• The group agreed to begin focus on identifying high quality and meaningful qualitative evidence.

Data
• A comprehensive framework for data analysis and reporting has been agreed with ISD representatives on the group.
• The group is committed to ensuring that all data are presented in a format that is easy to understand.
• Data will be collected and presented every six months.
• In a letter from the Chair, Board Medical Directors have been reminded to highlight the importance of accurate clinical Board coding.

Patient Information subgroup
• Engagement with the public and the establishment of a patient subgroup is a priority area.
• The patient information subgroup will review the current patient information available and identify gaps in provision.

Self-evaluation tool
• A self-evaluation tool to find out how NHS Boards across Scotland deliver and manage USI and POP transvaginal mesh implant services, is currently being developed and will piloted and rolled out in Autumn 2018.

Third TVMO Group Meeting – 28 June 2018

Highlights from the third TVMO group meeting are:

• The Chair met with the Chief Medical Officer and directly reported on the progress of the group.
• Data on the provision of physiotherapy services for SUI and POP are being collated by the physiotherapist group representative.
• The NHS Inform website hosts information about mesh. The TVMO group will take ownership of this until a Managed Clinical Network is established.
• The September meeting will include updates on:
  • reporting adverse events and incidents, and clinical governance
  • TVMO communication strategy
  • Patient Information subgroup

Useful Information

Website
A page on the Healthcare Improvement Scotland website has been established for information including: the Terms of Reference, minutes of meetings, progress reports and declaration of interests.
